SOFTEN NS FLAKE Weak Cationic Softener

SOFTEN NS is weak cationic softener, can be applied for cellulose synthetic and various blended fabrics in single use or with other resins and finishing agents due to its good compatibility.

CHARACTERISTIC:

Appearance : White Yellow Flake
Ionicity : Weak cationic
Ph(1% solution) : Weak acidic 4.5 + 0.5
Solubility : Soluble in cold water

ADVANTAGES:

- in case used for synthetics, provides silky like handling.
- almost no influence to dyeing fastness.
- Can be also used together with finishing resins due to its good compatibility.
- Little yellowing.

APPLICATIONS:

- 1) Used together with finishing resin for Cotton, T/C, T/R, Acrylic fabrics
 - Glyoxal resin 8%
 - Catalyst 1.5%
 - Softener ns 2.0 – 4.0

- 2) Single use for cotton, T/C, T/R, Ac
